WALTHAM

Watches! last fifteen Years by Railway Conductors, Engineers and Expressmen-the most exacting of watch-wearers-has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Wates. To satisfy that

More than 400,000 of these watches are now peaking for themselves in the pockets of the people-a proof and a guarantee of their superiority over all others. The superior erganization and great extent of the Company's Works at Waltham, enable them to produce the watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent, more for their watches than is necessary. We are now selling Waltham, watches at loss prices in greetbacks, then the sold urices be-

class in all these respects, is to decide the ques-

fore the war. There is no other manufacture of any kind in the United States of which this can be said. These time pieces combine every improv ment that a long experience has proved of real ractical use Having had the reinsal for nearry every invention in watchmaking orginating in this country, or in Europe, only those were finally adopted which severe testing by the most skilling artisans in our works, and iong use on the part of the public, demonstrated

to be essential to correct and enduring time-Among the many improvements we would The invention and use of a center-pinion of eculiar construction, to prevent damage to te train by the breakage of main-springs, is riginal with the American Watch Company. who having had the refusal of all other contrivances, adopted Fogg's Patent Pinion as be-
